An Innovative Office-Based Technique for Urethral and Bladder Stones: A Case Report

Published On: December 20, 2024 | Pages: 001 - 002

Author(s): Amr Elmekresh*, Ozair Al Ziyada, Tariq Abdul Hamid, Fadhel Yusuf, Ayman AlYammahi, Elena Surovtseva, Elham Mahjoor Azad, Abdulmunem Alsadi, Mohamed Kaya, Yaser Saeedi and Fariborz Bagheri

This case report presents a novel, cost-effective, and minimally invasive office-based approach for managing urethral and bladder stones in an emergency setting. The method involves initial stone manipulation into the bladder, followed by Foley catheter placement and a regimen of tamsulosin to enhance urethral dilation and urine flow. Instillagel is subsequently appli ...
