The Effect of Anxiety, Depression, Social Support and Clinical Features on Hope in Kidney and Liver Transplant Recipients

Published On: February 11, 2025 | Pages: 001 - 007

Author(s): Esra eker, Gülsüm Nihal Çürük* and Özgül Karayurt

Aim: This study aimed to examine the effects of anxiety, depression, social support, and clinical features on hope among kidney and liver transplant recipients. Method: This study used a descriptive cross-sectional design, and the study sample included 192 kidney (n:100) and liver (n:92) transplant recipients. A sociodemographic and clinical characteristics form, The ...
