Adaptive Behavior and Quality of Life of adults with intellectual disabilities: Psychomotor Therapy as support

Published On: November 28, 2018 | Pages: 031 - 038

Author(s): Mariana Freitas and Sofia Santos*

Background: The increased scientific recognition of Quality of Life (QOL) and adaptive behavior constructs implies changes in practice aligned with the supports person-centred provision. The alignment between these constructs is been recently proven at theoretical level but it still lacks of practical evidences-based. ...

Temporomandibular Joint Dysfunction in a cohort of women with Rheumatoid Arthritis

Published On: October 15, 2018 | Pages: 027 - 030

Author(s): Catarina Ambrósio*, Renata Aguiar, Catarina Ambrósio, Inês Cunha and Anabela Barcelos

Temporomandibular joint dysfunction (TMD) is characterized by the presence of signs and symptoms that lead to functional changes in this joint. Most of the times with a multifactorial etiology, it can be associated to systemic diseases, such as rheumatoid arthritis (RA). Objectives: to evaluate the prevalence of TMD in a cohort of women with RA, as well as possible ...
